| <input type="checkbox"/> |  | If requested, a custom database may be developed for the IRVISION. This includes: a minimum of 50 calibration measurements, data enhancement / optimization and user training. Price quoted is Turnkey which offers three days on-site, airfare, housing and subsistence. Additional days (if required) can be charged \$950 / day. | \$ 3800. |
| <input type="checkbox"/> |  | Warranty extension to 3 years or a maximum of 50,000 measurement cycles; 1 CAL-PLUS included; Priority maintenance and service with 5 days in house turnaround time. *  | \$ 2295. |
| <input type="checkbox"/> |  | Warranty extension to 3 years or a maximum of 50,000 measurement cycles; 2 CAL-PLUS included; Priority maintenance and service; 1 free loaner unit for 2 weeks or the duration of any repair. *   | \$ 3800. |

EXPEDITED SERVICES ALWAYS AVAILABLE \$ 225.  
 Petrolab Company offers expedited repair and calibration services for Grabner instruments. This service is designed to help if you need an instrument calibrated or repaired in the shortest possible time. Expedite your service and we guarantee that your instrument will be completed within 48 hours from the date your instrument is received (Delivery is subject to parts availability).

The order is subject to the terms and conditions of the General Term and Conditions for Service and Maintenance (GTC-SM), which can be requested through our Broken Arrow office at (918) 459-7170.

Order can be sent as PDF via e-mail to petrolab.sales@ametek.com.

Order is subject to acceptance by Petrolab Company & Grabner Instruments. Acceptance will be made by written order confirmation.

\* Additional fees may apply for special IR-Series calibration liquid compounds.
