Petrolab Company offers ISO 17025 Traceability.

Petrolab products are calibrated by test and measurement equipment that is traceable to ISO 17025.

Petrolab offers ISO 17025 traceability for Service, Test and Measurement Devices that are used to repair and calibrate Grabner Products. Customers can request our calibration certificates, traceable to ISO 17025. The issuing of a letter stating the above for a specific service case is free of charge.

Customers are also welcome to download the ISO 9001 .pdf document through the www.petrolab.com website.

Copies of traceability certificates related to a specific service case are chargeable at \$275.00. and must be placed with their Service/Calibration Order.

Please feel free to contact your Regional Sales Manager should you have additional questions or call the Technical Services and Calibration Center directly at 918-459-7170.
